SUMMARY

Data Science graduate, have multiple certificates in data science and big data analytics. I did my master's in Data Science and my bachelor's in Computing Information Systems. I am interested in Big Data Analytics, Data Engineering, Computer Vision, Machine learning and Natural Language Processing. I am seeking a job in one of these fields.

EDUCATION

2021 - University of Glasgow, Computing Science School.
2022 (United Kingdom)
Master's degree, Data Science.

2013 - King Abdulaziz University, Faculty of
2017 Computing and Information Technology.
(Saudi Arabia)
Bachelor's degree, Computing Information System.
GPA: 4.35/5

WORK EXPERIENCE

09/2021 - Volunteer (Mentor), Misk Foundation.
PRESENT leading young people to help them to be goal-oriented and self-motivated to prepare and meet universities' requirements such as IELTS and SAT tests.

10/2018 - Session Lead, Udacity.
03/2019 Leading candidates throughout the Data Analyst nano-degree course and helping them overcome any technical or non-technical challenges.

07/2018- Trainer, Cloud Systems.
08/2018 Trainer for an online summer camp for recent graduates. I trained them on machine learning models.

12/2017- Trainee, Wadi Jeddah.
03/2018 Developed a Machine learning model to match the individual with the best available job.

CERTIFICATES AND COURSES

- Udacity, 2019- [Data Analyst Nano-Degree](#)
- Udacity, 2018 - [One Million Arab Coders- Data Analyst Track](#)
- Udacity, 2018 - [Data Foundations Nanodegree](#)
- Dell EMC, 2017 - [Data Science and Big Data Analytics certificate](#)
