With +17 years of experience in the IT industry I have acquired a tremendous volume of hands-on technical and management skills.

As a detail-oriented person with a passion for excellence, I am adept at listening to clients' needs, then analyzing and implementing the best-designed solution.

I have enjoyed managing and implementing several large-scale Software, Infrastructure, cloud deployments projects and leading technical and administrative management for end to end IT service with large enterprise clients, Identifying the best technical solutions that can be rolled out efficiently and in a cost- effective manner.
