

# Nourah Alsowayigh

COMPUTER INFORMATION SYSTEM SPECIALIST

## CONTACTS

-  Phone  
+966 583731333
-  Email  
nourah.alsowayigh@gmail.com
-  Address  
Khobar, Saudi Arabia

## EDUCATION

-  Bachelor Degree in Computer Information System – GPA 3.97/5  
Imam Abdulrahman Bin Faisal University (IAU), Dammam Saudi Arabia – Aug 2016 to May 2021

## CERTIFICATIONS

- Security + (SYO-601) – CompTIA Dec 2021
- Cyber Security Analyst (CySA+) – CompTIA Jan 2022
- Security Analytics Professional (CSAP) – CompTIA Jan 2022
- English Diploma – EF English Live 2021

## SKILLS

- Knowledge of Security across various platform
- Technical Aptitude
- Wireshark
- Microsoft Office User
- Problem Solving Skills
- Logical Thinking

## PROJECT

- High Education Scheduling System (HESS) – My Graduation Final Project.

## LANGUAGES

- Arabic (Native)
- English (Professional)

## SUMMARY

Energetic and Enthusiastic University IT graduate with cyber security background and hundreds of classroom hours in computer information system. Adept at configuring security software, recovering data, teach employees about security threats and work with other information technology tools.

Seeking to leverage my skills in fast growing organization to build out best my skill set a competitive advantage within organization.

## PROFESSIONAL EXPERIENCE

### **Cyber Pro+ Trainee** **National Cybersecurity Authority** **Oct 2021 – May 2022**

- Study various Cybersecurity courses to enhance my skill set and expand my knowledge. During my stay I learned following major tasks.
- Seek to build in security during the development stages of software systems, networks and data centers.
- look for vulnerabilities and risks in hardware and software
- Find the best way to secure the IT infrastructure of an organization by building firewalls into network infrastructures and constantly monitoring for attacks and intrusions.
- Learn how to close off the security vulnerability when the cyber security specialist finds a potential threat or attempted breach.

### **Manager Assistant - Trainee** **Imam Abdulrahman Bin Faisal University** **Sep 2021 – Dec 2021**

- Ensure university policies are followed, maintain an overall management style that follows university best practices.
- Learn how to provide leadership and direction to all employees.
- Take disciplinary action when necessary.
- Complete tasks assigned by the seniors accurately and efficiently.

### **System Analyst (CO-OP Trainee)** **Imam Abdulrahman Bin Faisal University – Office of the Vice President for Academic Affairs, Dammam Saudi Arabia** **Jul 2020 – Oct 2020**

- I have learned various aspects regarding system analyst during my training. Some of which are as follows.
- Examine current systems, talking to users (requirements gathering), producing specifications for new or modified systems.
- Liaise with other IT staff such as programmers to produce new systems and implement new systems.
- Troubleshoot technical issues, risk mitigation planning, create system guidelines and manuals for the organization.
- Run training sessions and workshops on system processes.
