Esraa Ibrahim Almosalamy

Computer science

I'm determined to keep learning and continually increase my experience in my field. I aspire to be a professional in data analysis as I like working in a team, sharing my knowledge, and learning from my coworkers as well.

Education

2019-2022
Diploma in Computer science
Imam Abdulrahman ibn Faisal university

Academic Experience

- web based design project :
The project is the creation of a complete website (buying and selling site) the name of the project (traditional kitchen).

- Graduation Project:
The project is a robot that helps people with disabilities and the elderly who find it difficult to pick up objects from below or objects far from them that require a distance to reach them.

Personal Experience

-The fingerprint project:
I worked on the fingerprint device through the Arduino, and the idea of the fingerprint device is to open the street door through more than one handprint.

-Smart trash:
The project is a trash can that contains many sensors, including a sensor to automatically open the trash, a sensor when the trash is full, a fire sensor, and many sensors.

Experience:

29/8/2022|Maternity and Children Hospital in Dammam |present

Skills

Technical:
Programming: R,Arduino,java,html,SQL.
Software: MS office .

Personal:
- excellent communication skills.
-Time management ability.
-Ability to work under pressure.

Activities:

Certificate:
-Data Analysis(Google-Coursera).
-Workshop Computer Science and programming
-Member of Google IDeveloper Student Club.

volunteer:
- jood charitable women society.
- public relations in Imam Abdulrahman University
- Google Developer Student Club.

Achievements :

- I got third place for the best graduation project 2022.
-I won the "Collect and Create" competition 2021.
