SUMMARY

I specialize in Computer Science and Engineering, and a member of the Saudi Council of Engineers. I have experience in web application development. Seeking a challenging position to utilize my technology skills and abilities as well as to enhance my knowledge about new and emerging trends in the technology sector.

EDUCATION

● **Bachelor's degree in Computer Science and Engineering**
 University of Hafr Al-Batin   Jun 2022

TRAINING

● **Full Stack Web Development**
 King Fahad Medical City   May 2021 | Dec 2021

I was trained to design websites with a strong internal structure and provide users with an intuitive and interactive experience. These include front-end design, back-end website development, database creation using Microsoft SQL Server and Microsoft Visual Studio to create ASP.NET WebForms

PROJECTS

• **Medical Support Senior Project**
(Full Stack Web Development & Machine Learning)
A platform that seeks to share medical devices, and it gave the medical staff opportunity to volunteer.

• **King Fahad Medical City Academy Project**
A platform that provide different courses in differnt aspects, demonstrated under the hands of experienced instructors. http://trainingschool.wdbcs.com/

• **Home Services Project**
Platform for booking and choosing a maid, a babysitter, or a driver according to the customer's need.
