- Monitor the network inside the university and make tracing for the traffic and solve the problems.
- To program software and design and troubleshoot the problem and how to solve it.

In the Technical support section, At Taibah university in a deanship of information technology.

EDUCATION

Associate degree (Bachelor) in computer engineering from Taibah University

- In (2016-2017) Acquiring the English language from Taibah University
- In (2017) Acquiring Course English language from New Zealand English Language Academy (Rela institute)
- (2017-2021) Major in computer engineering at college of computer science and engineering. GPA 3.57 out 5
- In 8/2021 Graduation project in a tool for fault monitoring and detection based on Taibah University network Infrastructure by using c# language.

SKILLS

- Good manners
- Teamwork and collaboration
- Troubleshooting
- Java
- Network
- Technical
- Computer Engineer
- Time
- Interpersonal communication skills
- Functional flexibility
- Dealing with Microsoft office (word, PowerPoint..)

LANGUAGE

- English
- Arabic

COURCE

- Network Basics
- Packet Tracer
- Technical report writing .

- **I have a membership in Saudi Council of Engineers**
